20+ YEARS OF EXPERIENCE

FAQ

1. How is ECHON eco-friendly?

Foam PVC is degradable and recyclable. We recycle and reuse PVC to help reduce our carbon footprint on Earth while using Lead Free and Food Grade additives. PVC is also a great substitute for using wood. By reducing the amount of trees that are cut down, we believe that ECHON is ultimately helping to keep the world green.

2. What is ECHON's warranty?

ECHON offers a 25-year limited warranty. Please refer to our warranty details on our website. (www.EchonBuildingProducts.com)

3. What are the different colors of ECHON products?

ECHON PVC trim boards comes in many colors such as, Bright White, Almond and Barnwood Grey. ECHON also offers colors like blue, red, green, orange and many more for the signage industry.

4. What are the different finishes/ textures?

ECHON has various finishes such as smooth, gloss, and textured wood-grain. ECHON also offers custom textures like sanded, scuffed and deep sawn. These provide a unique finish that gives homeowners a traditional smooth or wood-like texture.

5. Why is ECHON PVC worth the additional cost compared to wood?

ECHON PVC products are water resistant, fire retardant, anti-termite, anti-mold, chemical resistant, economical and maintenance free. It is a smart investment.

6. What can I use to fill screw and nail holes?

You may use fastener plugs made from ECHON PVC trim. You may also use caulking or other fillers to fill the hole.

7. How is PVC compared to wood in workability, such as cutting, nailing and drilling etc.?

ECHON PVC can be easily worked with standard tools that is used for wood-working carpentry. It can be cut, turned, drilled, planned, milled, screwed, polished and much more. It can be nailed easily. It is advised to nail ECHON material at least 6 millimeters from the edge to avoid splitting. It can be drilled like wood. While bolting, larger size washers should be used to spread the weight load.

8. Will PVC boards corrode?

No, PVC boards will not corrode from natural weathering, water, and insects as long as ECHON's PVC products are used and maintained properly. An example of misuse and wrongful maintenance is if acid or harmful chemicals are applied to the board.

9. Is ECHON Boards scratch resistant?

Depending on the finish and gloss of our products, it may be scratch resistant.

10. What sizes does Echon PVC Sheets come in?

ECHON offers thicknesses and widths unmatched by other manufacturers. Normally the width of our PVC Sheets are 4 ft wide, but can be increased to 6 ft wide upon request. Our thickness ranges from 1mm to 50mm! Our lengths can be however long required. These dimensions are especially great because they allow our products to be used in endless applications. See our website for more information.

11. Can ECHON PVC be painted? What is the best type of paint to use?

Although ECHON PVC products do not need to be painted, some choose to paint them. The best types of paint to use are acrylic, PVC paint and two component polyurethane compound. ECHON PVC does not need to be primed before painting, but can be for better results.

12. Is it safe to use PVC sheets in coastal areas?

Salt water will not corrode ECHON PVC boards. So it is safe to install PVC by the beach.

ABOUT US

ECHON Building Products has over 20 years of experience in PVC extrusion and is a premier supplier of PVC Trim boards, Sheets, and Mouldings worldwide. ECHON products are manufactured from state-of-the-art technology enabling ECHON to offer the most extensive and high quality products in the industry.
